Enchantment — Plan

Whenever you draw your second card each turn, create a 2/1 black Villain creature token with menace and put a plan counter on this enchantment.

When the seventh plan counter is put on this enchantment, sacrifice it. When you do, you control target opponent during their next turn. *(You see all cards that player could see and make all decisions for them.)*

Oh, Uh, Well this is my "GRL" friend, Jessie.

umm... Hello!

I'M SORRY, DID YOU SAY girlfriend!?

SO that's it huh?

MOM PLEASE.

You go out, become champion. Then you went and bag yourself a woman close to your dear old mother's age?

NOW you're just gonna throw me to the curb, huh?

It's game over for mom? Just like that?

MOM, Please stop being weird. It's not like that all.

While exploring the ancient temple in search of Frieren, Fern stepped onto a glowing rune that instantly immobilized her. The device used a peculiar kind of magic that weakened her resistance and heightened her body's sensitivity. She struggled to maintain her dignity, but her weak points were quickly discovered, triggering uncontrollable, hysterical laughter. It was undeniable proof that even the most disciplined mage has her sensitive limits.

ADEPTUS ASTARTES

ANGELS OF DEATH

-Angel futa milk is extremely rare and precious. In contrast, female orc foot sweat is plentiful. In the orcish milkling factories, orc girls convert their own foot sweat into angelic futa milk.

-Foot sweat is constantly pumped into the angels mouth. This is the only means of hydration and ensures plentiful milk production.

-All futa angels have a huge fetish for smelly feet, so orc girls like to keep them nice and sweaty - at least seven years unwashed with everyday marathons in heavy boots, sockless, of course.

-No one can resist footjobs by huge, soft orc-girl feet, especially not foot fetishistic futa angels.

-Flying, mechanical feathers tease and tickle the angel, escpecially on her cock and the soles of her feet.

-The feathers also tickle the feet of the orc girls.Besides the orc girls liking it, it makes their feet smell evern more, due to increased toe wiggling.

-The immortal angels don't need food or sleep. They are eternally milked in the orc factories.

Redsoniq REDSCRIPT 2025

PLEASE NO!

ANYTHING BUT THAT!

-In the precum factories, halflings extract precious precum from futa angels.

-The angels are completely immobilised. Only their feet, breasts and cock are left bare.

-Wrapping the base of the shaft makes sure the angels will never, ever cum.

-A special bio-mechanical licker lickes the head and collects the precum. The licking and sucking of the licker is immensly pleasureable.

-Feathering the head, shaft, balls, and breasts edge the angel to the absolute brink of orgasm.

-Futa angel feet are quite sensitive. Licking them increases the production of precum. The feet are licked at all times.

OH, YES! IT'S TICKLING AND SMELLY FEET FOR YOU, LITTLE ANGEL.

-Several halfling feet are used around the futa angel head. They are cleaned every day and made to run one hour, without socks, before they are used. New nailpolish is applied as well. The smell of fresh foot-sweat and nail polish drive the futa angel wild with lust.

-The immortal angels don't need sleep or food. They are milked for their precum at all times.

-They don't need air either, but the tickling makes them laugh and, consequently, inhale the halfling foot smell.

-There are millions of angels in a factory, and there are innumerable factories across the multiverse.

My specialty there was securing sponsorships for the corporation. Every single kingdom I was sent to ended up investing millions of Berries into Baroque Works.

Ship's Log – Master Roshi's Journey Across Worlds, Day 52

This time, I ended up in a cartoon world and caught a kid stealing my spaceship parts to "study" them. The little thief was incredibly rude, claiming someone like me must have stolen such an amazing machine. Well, I had actually stolen it from Bulma, but that's beside the point. The brat needed a lesson.

I dragged him to his mom and threatened to turn him in. After hours of negotiating, she begged me not to call the cops and offered me cake instead. I didn't plan on forgiving him, but when I saw the size of that cake, I just couldn't resist.

What can I say? I have a weak spot for cakes, especially from housewives.

DEXTER, YOU'RE GROUNDED FOR A YEAR BECAUSE OF THIS !!!

YOU'RE GOING INTO THE WRONG HOLE, THE WRONG HOLE!!!

I started pounding that ass without mercy. The harder I thrust, the more she moaned with pleasure.

It seemed like she hadn't been fucked like that in a long time, because she kept begging for more. I don't know who her husband is, but he obviously wasn't doing his job right. Lucky for her, here I was to save the day — the hero of every unsatisfied housewife.

I'm pretty sure I was the first guy to ever fuck that massive ass, which was a surprise, considering it's the first thing that comes to mind when you look at her.

Maybe she was too shy or too reserved for anal sex? Perhaps, but with me, she wasn't shy at all; quite the opposite, she made a point of pushing back harder against every thrust I gave her.

Menace
Whenever Black Widow deals combat damage to a player, that player exiles cards from the top of their library until they exile a nonland card. You may put a +1/+1 counter on Black Widow. If you don't, you may cast the exiled nonland card until end of turn and mana of any type can be spent to cast that spell.

How can I rename multiple images at once with different names?

Mc_Allister

Level 1 [illegible] points

Oct 21, 2024 3:14 AM in response to Feuerstein

Automator is a built-in automation tool for macOS. It is very convenient for batch processing files, especially when you want to **rename multiple images at once**. The steps are a little complicated, but you can get it done with one click after setting it up.

1. Open Automator and create a new "Workflow".
2. Find "Get Specified Finder Items" in the search bar on the left, and drag it to the workspace on the right.
3. Then search for "Rename Finder Items" and select "Add" to the workflow. You can choose the specific renaming method here, such as replacing text, adding prefixes or suffixes, etc.
4. After selecting, save this workflow and give it a name, such as "Batch Rename".

In the future, you only need to select the pictures you want to rename and run this workflow. It is especially suitable for processing many pictures at one time, without having to change the names one by one, and the efficiency is super high!

Grey Knights dying in droves sounds pretty cool to me.

Between this and killing Adepta Sororitas as blood sacrifices, Grey Knights sure got some of the dumbest lore.

Grey Knights are gonna get squatted after the Emperor eats them to become a badass lich. I can sense it. They might get reworked into an undead army under the Lich-Emperor's control after that though.

Bat Vibes @BatVibes · 1h

Did you know?
Shuckle can theoretically unleash one of the strongest single attacks in the entire Pokémon series.

Shuckle has the highest Defense stat in the game (230). If it uses Power Trick, it swaps its Attack and Defense stats, suddenly giving it the highest Attack stat of any Pokémon in existence.

Combine that with Shell Smash, Rollout, and perfect setup... and Shuckle can mathematically hit harder than almost anything else in the game.

The ultimate glass-cannon!

IN 1989, CHITO SHEDDEN RESCUED A WOUNDED CROCODILE, POCHO, AND THE TWO DEVELOPED AN UNBREAKABLE BOND, SPENDING 20 YEARS SWIMMING AND PLAYING TOGETHER. CHITO'S WIFE LEFT HIM BECAUSE OF HIS DEEP CONNECTION WITH POCHO, BUT CHITO'S RESPONSE WAS, "I COULD FIND ANOTHER WIFE, BUT POCHO WAS ONE IN A MILLION."

noveriaofficial ⚡ The wait is over! ⚡

Today, we are beyond proud to unveil “Becoming After”, the new chapter in Noveria’s journey.

This album is the result of years of growth, challenges, sacrifices, and relentless dedication. Every note, every lyric, every melody, and every moment poured into these songs represents a transformation, not only as musicians, but as human beings.

Becoming After is about what remains after the storm.Who we become after the fall.The strength we discover after facing the darkness.

It is a path that begins in the shadows and rises toward the light. A story of resilience, rebirth, and the courage to keep moving forward when everything around us seems to be falling apart.

This is our most ambitious, emotional, and powerful work to date, and we cannot wait for you to experience it.
A huge thank you to Scarlet Records and everyone who has believed in us, supported us, and walked this path alongside us.
The journey continues!

Welcome to BECOMING AFTER.

scarletrecords Noveria new album BECOMING AFTER out August 21👉 LINK IN BIO

Noveria will release the new album "Becoming After" on August 21 through Scarlet Records 🔥😈
Built upon Noveria's unmistakable blend of prog power metal, modern heaviness, grandiose atmospheres, and breathtaking musicianship, "Becoming After" pushes the band into unexplored territory – darker, deeper, yet more alive than ever
Massive choruses collide with crushing riffs, epic soundscapes meet technical intensity, while passionate vulnerability stands proudly beside pure aggression
Every riff, every orchestration, every scream and melody carries the weight of real battles lived through the fire and survived with scars turned into strength
With this new record, and a deeply renewed line-up, Noveria return heavier, more cinematic and emotional, and definitely fearless!

Fifth record for the forward-thinking Italian progressive power metal band;

produced, mixed and mastered by Francesco Mattei at Underworld Studio;

featuring legendary pianist and composer Mike Moran (Freddie Mercury, Ozzy Osbourne) on "Through Your Light";

featuring Mistheria (Bruce Dickinson, Vivaldi Metal Project) on keyboards on "Cold Flames";

full real string arrangements/performances by violinist Abigail Stahlschmidt (Jim Peterik, Chris Caffery) and cellist Luca Basile;

cover & artwork by Paolo Conte and Bianca Gambrioli;

Noveria will perform at ProgPower USA 2026;

FFO: Dream Theater, Symphony X, Kamelot, Nevermore, Evergrey;

"Becoming After" will be released in the following formats:

- digipack CD
- digital

"Becoming After" tracklist:
1 The Only Way
2 Convicted To Rise
3 Echoes From The Abyss
4 Cold Flames
5 The Viper's Nest
6 Infinite Horizons
7 Through Your Light
8 Heavenfall
9 Radiance
10 Becoming After

Total running time - 53:39

Noveria:
Francesco Marino - vocals
Francesco Mattei - guitar
Paolo Campitelli - keyboards
Andrea Arcangeli - bass
Paolo Conte - drums

super adaptoid 2

Legendary Artifact Creature: Robot Villain

Superadaptoid's power is equal to the number of legendary creatures you control.

Whenever Superadaptoid enters the battlefield or attacks, target one other creature. If that creature has haste and Superadaptoid doesn't, put a haste counter on Superadaptoid. Do the same for flying, first strike, double strike, deathtouch, indestructible, lifelink, menace, reach, trample, and vigilance.

I wish more people talked how both Corvus and Vulkan felt insane guilt and trauma over the death of Ferrus Manus, double so for Corvus since he actually did escape Isstvan. It is common knowledge that not many of the Primarchs liked Ferrus, but they respected him. They felt guilt

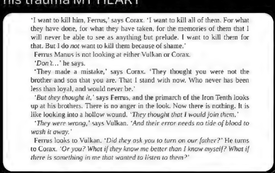
Corvus actually wanting to help Ferrus with his trauma MY HEART



'I want to kill him, Ferrus,' says Corax. 'I want to kill all of them. For what they have done, for what they have taken, for the memories of them that I will never be able to see as anything but prelude. I want to kill them for that. But I do not want to kill them because of shame.'
Ferrus Manus is not looking at either Vulkan or Corax.
'Don't...' he says.
'They made a mistake,' says Corax. 'They thought you were not the brother and son that you are. That I stand with now. Who never has been less than loyal, and would never be.'
'But they thought it,' says Ferrus, and the primarch of the Iron Tenth looks up at his brothers. There is no anger in the look. Now there is nothing. It is like looking into a hollow wound. *'They thought that I would join them.'*
'They were wrong,' says Vulkan. *'And their error needs no tide of blood to wash it away.'*
Ferrus looks to Vulkan. *'Did they ask you to turn on our father?'* He turns to Corax. *'Or you? What if they know me better than I know myself? What if there is something in me that wanted to listen to them?'*

Treating Ferrus as a male SA victim is such a fire idea from John French and explains why he was so feral in trying to kill Fulgrim

Basically two of the brothers he respected the most and in Fulgrim's case loved, saw him and out of everyone of the loyalists and went "he'd fold."

Imagine how violating that is to wonder what they possibly saw in your that the others didn't have. That fear of weakness.

A huge part of Ferrus Manus's story across all the books is he doesn't know who he is, he feels insanely alone and afraid of his hands because of the voice he hears from them, thus Fulgrim trying to turn him traitor scared him because he feared, 'what in me said I would?'

Add that to the fact he's already dealing with his sons starting to reject the very thing he values. Strength of deeds and will.

His boys are mutilating themselves and he does not have the time to fix this.

I get it he is NOT Dad of the year but he does care for them.

Yeah, he was definitely general first dad second. One thing I do slight him for is the Storm Walkers used to be pretty solid to the average human before Ferrus' standards had them become bitter.

But he was no Perturabo. He did truly want to fix this error in mentorship.

But time ran out. And that's what makes Ferrus sad to me. The best word for him is "Almost."

Almost best Fulgrim, almost made the right call at Istvaan, almost breach's Horus fortifications which surprised even Lupercal. Almost but so far away.

This week I decided to change things up quite a bit compared to everything I've posted so far. The Drukhari are a faction that really fascinates me, although their miniatures unfortunately don't quite match my personal taste, so I doubt I'll ever build an army of them.

Worst part about the World Cup so far:

-Americans and Brits arguing about whose stadia are better

Spain is experiencing Chattanooga, TN.

Argentina is in Auburn, Alabama.

Germans are eating Waffle House.

Brits are still complaining.

This World Cup has been amazing and it hasn't even started yet.

@SharpFootball

there's a German guy named Freddy here for the World Cup

as far as I can tell his meals on Monday were:

Waffle House at 1 AM
Wendy's for lunch
Chili's for dinner & NBA Finals Game 3

little does he know he just earned his citizenship, that was the secret meal combo to unlock it

"Groups are bad. You need to come alone. No escorts either"

Hello? 911? FBI? Because HELL NO. As long as your escort isnt a maniac or jealous partner they should always be welcome on set.

Groups are AMAZING. With the right talent these shoots are always a vibe and hilarious. Hardest part as a producer is getting the models to focus or in my experience to stop tickling whoever is in the seat. Women are mean sometimes lmfao

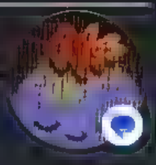
From Create Mode



There isn't a day Im not writing bars and working on my craft. I'm always in the hyperbolic rhyme chamber for this rap shit. Ppl be amazed I can write verses in 10 mins that's because I practice harder than anyone in my lane. I'm no prodigy I just practice to where the process becomes light work and 2nd nature. Anybody can do it you just gotta stop bsn. Dont say you want to be good but ya actions show you dgaf. You can't control if ppl latch onto ya music. But you can control how good you are at making it.

Here we are with this Tuesday post, and this time it's actually a non-Warhammer piece.

This is another commission I completed for

Horus: Konrad, i need you to go to the furthest reaches of the galaxy and distract the Dark Angels for so long that they won't reach Terra in time.
Konrad: And how should i do that, brother?
Horus: I want you to play the longest game of hide and seek you've ever played with the Lion.
Konrad: Done.

Imagine a structure so vast that light itself would take 10 BILLION years to cross it.Astronomers have found one of the largest known structures in the observable universe: the Hercules–Corona Borealis Great Wall. They discovered this cosmic behemoth by mapping powerful gamma-ray bursts — the brightest explosions in the cosmos — using them as cosmic beacons to reveal where matter is massively clustered across incomprehensible distances.But here's the part that breaks cosmology: According to the standard model, the universe should look roughly the same everywhere on the largest scales. Yet this colossal wall stretches far bigger than our theories comfortably allow — challenging everything we thought we knew about how structure forms in the cosmos.Is our understanding of the universe incomplete? Are even larger structures still hiding out there? The Hercules–Corona Borealis Great Wall is a humbling reminder: no matter how advanced our science gets, the universe still loves to surprise us. Every discovery shows just how small we are in the grand scheme... and how breathtakingly extraordinary it all is. If this blew your mind, share it with a fellow space lover!

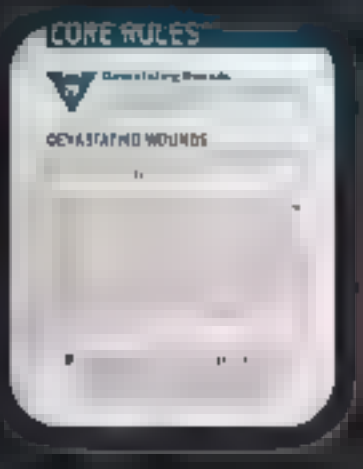
40k devastating wounds

+4



Devastating Wounds is a powerful universal weapon special rule in Warhammer 40k. Whenever an attack with this rule scores a Critical Wound (an unmodified wound roll of a 6, or an altered critical value via abilities like *Anti*), the attack completely ignores all Armor and Invulnerable saving throws. New Recruit

How Devastating Wounds Work

When you roll a "6" to wound with a Devastating Wound weapon, the core mechanics apply:

- **No Saves Allowed:** The defending model cannot make a normal Armor Save or an Invulnerable Save. They bypass the save sequence completely. New Recruit
- **Feel No Pain (FNP):** The target *can* still make Feel No Pain rolls, as FNP is not considered a saving throw. Reddit r/Warhammer
- **Damage Spillage:** Unlike traditional Mortal Wounds, damage from Devastating Wounds does not "spill over" onto other models in a unit. If you inflict a 6-Damage Devastating Wound on a squad of 1-wound infantry, the entire attack sequence is wasted on a single dead model, rather than wiping out six models. Reddit r/Warhammer
- **Resolution Timing:** These attacks are allocated to models only after all other non-Devastating Wound attacks from the same attacking unit have been resolved.

@Keetheweeb @Daddyphatsnaps absolutely delivered!!

I get Vengance vibes with Fly, the deep introspective lyrics, instrumental that fitd the character in a movie soundtrack.

Vengeance is an all time DPS favorite song, so this is definitely a nice change of pace 💗

A Cosmic Monster Spotted by Webb

The James Webb Telescope has captured an image of the dusty galaxy AzTECC71, which formed just 900 million years after the Big Bang. This giant "bakes" hundreds of new stars every year—a feat that has astonished scientists.

The discovery of AzTECC71 upends our understanding of the early Universe. Massive "star nurseries," previously thought to be rare, may be three to four times more common than once believed.
